

Through out my years of education I have never had such a teacher as Dr. Z. I have never had a teacher so amazing, sweet, and truly awesome. I met her this year and she has thought me so much. She even created a writing group for me and some friends who care passionately about writing. She taught us a different way you to look at the world, and made sure we had our own views of the world. She has also introduced me to many amazing books and movies that have changed my life. She really is the best teacher I've ever had.
