

## Wesley Van Hoosear nominates Mrs. Stacey Foster for the Extra Mile

I am nominating Mrs. Foster for the extra mile award because she teaches us things that really help us in reading and math. Also, she makes sure that our classroom is a good environment to learn in and fun as well. She makes me feel special by going along with my pretend name of Dr. Donut and obsession of donuts. Mrs. Foster shows us by using donuts to teach math. A number talk is where she writes a math problem on the board and we come up with strategies to solve it. Also, she is teaching us subjects differently so that we can learn and understand them better. Mrs. Foster really noticed and cared about me this year and I hope you can notice her with the extra mile award.
