

Ms. Edwards is motivational and she helps us to work our hardest and not to just lay around. She pushes us to do our best work and gives everyone a chance to speak so we can all learn new things instead of one person learning everything. We all learn the same amount of stuff and Ms. Edwards is a great teacher. I had trouble with my handwriting and she gave me a handwriting book and now my handwriting is much better. She gave me the confidence to read a chapter book when I thought I couldn't read well. Ms. Edwards taught us stuff on Google that most classes don't get to use. These are all the reasons why Ms. Edwards should win an award.
