

Mrs. Kramer is so kind and helpful. She is smart and brave, and she is herself. If I am ever stuck on something, she explains to me what to do in a very nice way without getting frustrated. Mrs. Kramer cares more about us, her students, than anyone. If one of us has something bad or sad happen, she encourages us and tells us we can do it. She helps us get through whatever we are going through. I think she has a great personality for being a teacher for all the above reasons. These are the reasons I think she deserves the Extra Mile Award.
